This report was prepared in accordance with the GRI Sustainability Reporting Standards, “core” option, with the information requested by the Mexican Stock Exchange through SAM (now S&P Global) for inclusion in the Sustainable Index and information obtained in response to requests about our material topics and stakeholders. It is also aligned with the 10 principles of the United Nations Global Compact and the 17 Sustainable Development Goals of the United Nations Organization.

The last report was prepared for the same period corresponding to 2020.

The process carried out to obtain the information has been provided through interviews with Senior Management and expanded by the corresponding corporate divisions.

As part of our environmental care strategy, we have produced the document in a digital format. This is the tenth time we have reported the results of the activities carried out in Mexico, North America, Latin America, Europe, Asia, and Africa.

The information obtained from the specialized areas in the different GRI indicators was submitted to an internal audit process to validate both the qualitative and quantitative information. The financial information was submitted to an external verification process.

During this last period, there were no significant changes with respect to the previous periods reported in terms of materiality and coverage.
